FRANK MILES HOUSE
LOUIS FLAGG HOUSE

Dear

FRANK MILES HOUSE - Proposed fire safety & building improvement works

We are writing to let you know about some proposed fire safety and building improvement works to your block. Although the works are not due to take place until Spring 2027, we want to let you know early on what will be happening and how the works may impact on you. The works will include:

- New property entrance doors and communal fire doors
- Roof and property windows replacement
- Walkway improvements including asbestos removal
- Decoration of communal areas
- Improved external Landscaping

We expect to appoint a contractor early in 2027 and will know more about how the works will be undertaken then. We will work closely with you and the contractor to ensure any disruption is kept to a minimum, but you will need to provide access to your home so we can carry out some works.

You will have an opportunity to have your say on final finishes to the outside of your block and let us know how you would like to use the drying rooms in the future.

Please see the pack provided which outlines the work in more detail. If you have any questions, contact us on the details above or visit us in the Somerstown Hub Cafe on Friday 25 September 10am to 2:30pm.

Yours sincerely,

Tom Sullivan
Principal Building Surveyor
