Resident engagement presentation

September 2026

What are the works?

- New property entrance doors and external wall improvements
- New communal entrance doors
- Communal redecorations
- Fire stopping in communal areas
- Roof Replacement
- Replacement of property windows
- Walkway improvements incl. asbestos removal
- Concrete fin repairs
- Improve external landscaping

Fire door replacement

- Replacement of your front door will involve additional works to the external front wall of your home that may cause you some inconvenience
- We need to replace the panels around your kitchen window with a brick wall
- Remove the window from the WC and replace with an extractor fan
- A temporary door will be provided so you will not have to move out for the works to be completed in your home & it remains secure
- Photos from a previous project at Dunsmore Close (2-24) to show what the work may look like.

Window and roof replacement

And other improvements

All property windows will be replaced
We will need access to your property to complete these works.

Opportunity to have your say
On the colour of the new window frames and external panels.

Roof and soffits will be replaced
Scaffolding will be erected for this purpose.

Walkways and handrails will be improved

Blockwork walls will be built behind the concrete fins
To provide fire protection to the drying areas.

There could be opportunities to re-open or repurpose the drying rooms

Have your say - external panel colours
