

Examiner Note

The Examiner would welcome clarification on two matters by 11 November:

- Regional/ sub-regional funding. What is the current role, if any, of PUSH in terms of sub-regional funding. Paragraph 6.1.6 of the Infrastructure Delivery Plan makes a reference to, for example, the MAA and the Solent Local Economic Partnership. Has any further work been undertaken with regard to potential sources of funding at this level?
- The implications of the New Homes Bonus as a source of funding for infrastructure. What scale of contribution is it likely to make?
