SEND Reforms Update

From September 2014 The Children and Families Bill will be introducing changes to how services are delivered for children and young people with special educational needs and disabilities (SEND).

In Portsmouth, we are working hard to make sure these changes make things better for children and young people with special educational needs and disabilities and their families.

The Changes in Brief

1. Working Together

Education, health and social care services working together to meet the needs of children and young people with SEND.

2. Local Offer

Information about the services all in one place, so that children, young people and their families know what help they can get.

3. Co-ordinated Assessments

Education, health and care coordinated assessments to identify needs and put in place the right support.

4. Co-ordinated Plans

Education, Health and Care Plans will replace statements of special educational needs and learning disability assessments.
