

6. Operational scopes - GHG breakdown for 2010/11

	GHG emissions 2010/11 in tonnes of CO ₂ e	State specific exclusions and % this represents for relevant scope
Scope 1		
Gas consumption	8,256	
Fuel (for heating and machinery) consumption	3,259	
Owned transport	3,884	
Process emissions	N/A	
Fugitive emissions	Not calculated	Emissions from air conditioning and refrigeration units in office building excluded due to cost of data collection. This is minimal, less than 1%.
Total scope 1	15,399	
Scope 2		
Purchased electricity	23,928	
Total scope 2	23,928	
Significant Scope 3		
Business travel	790	Includes all non-PCC owned vehicle use (except hire cars and public buses) and rail. Air travel has been removed from all years as it accounts for less than 0.1% of business travel CO ₂ emissions but takes a large amount of resource to collect data.
Employee commuting	N/A	PCC has minimal control and little information available for employee commuting so it is not collated.
Waste disposal	635	Emissions from refuse vehicles for PCC waste and Portsmouth residential waste
Product in use	N/A	PCC is a service provider only
Total significant scope 3	1,426	
Total GHG footprint	40,753	

6. Operational scopes - GHG breakdown for 2009/10

	GHG emissions 2009/10 in tonnes of CO ₂ e	State specific exclusions and % this represents for relevant scope
Scope 1		
Gas consumption	7,250	
Fuel (for heating and machinery) consumption	3,786	
Owned transport	3,982	
Process emissions	N/A	
Fugitive emissions	Not calculated	Emissions from air conditioning and refrigeration units in office building excluded due to cost of data collection. This is minimal, less than 1%.
Total scope 1	15,018	
Scope 2		
Purchased electricity	25,889	
Total scope 2	25,889	
Significant Scope 3		
Business travel	942	Includes all non-PCC owned vehicle use (except hire cars and public buses) and rail. Air travel has been removed from all years as it accounts for less than 0.1% of business travel CO ₂ emissions but takes a large amount of resource to collect data.
Employee commuting	N/A	PCC has minimal control and little information available for employee commuting so it is not collated.
Waste disposal	638	Emissions from refuse vehicles for PCC waste and Portsmouth residential waste
Product in use	N/A	PCC is a service provider only
Total significant scope 3	1,580	
Total GHG footprint	42,488
