

New Bransbury Park leisure centre

public consultation - March 2023

7 YOU SAID / WE DID

We've listened to what you've said in previous consultations:

-  Proposal includes the swimming, sports and health and fitness facility mix that you've told us that you want
-  Re-providing popular outdoor courts for football, tennis, netball and basketball for free community use
-  The miniature railway will not be moved
-  Parking has been fully considered to limit any impact on neighbouring streets - the three-hour parking to be extended along Bransbury Road and car park will be increased in size
-  All grassed areas retained, with exception to a small extension to the existing car park
-  The gardens at the western end of the park retained
-  Paths and lighting will be improved to ensure safe and easy access from the car park to the centre
-  Accessibility and sustainability embedded into the design
-  The Eastney Community Centre retained
-  A financially viable leisure centre
-  Working in partnership with NHS to investigate the option of including a modern GP surgery
