- Official Sensitive -

Good afternoon,

The Local Highways Authority (LHA) are supportive of the Portsmouth City Council Regulation 19 Local Plan and consider it to be sound and legally compliant. The representations submitted by the LHA include several minor modifications to the Local Plan. These modifications do not relate to soundness or legal compliance. The LHA retain a 'holding' concern in relation to air quality within the City Centre. The LHA will continue to work with the Local Planning Authority to deliver a scheme in the City Centre that meets the air quality standards.

Kind regards,
Felicity

Felicity Tidbury
Assistant Director - Economy, Transport and Planning
